Account # 475020

Pat,

This payment was due on a claim which we had. When the bill came in on the permit to be paid called the department of natural resources and were instructed at the time not to pay the permit until the case was resolved. The claim had not been used since the early 90's. This letter said that the claim is closed and we don't owe anything else. If you have any questions please call.

Thanks,
Cindy

*Carol please confirm
validity of this debt.*

*Pass fees
that were due -*

RE: Closure of Notice Case File

Dear Mr. Christensen:

A notice was signed by you on May 11, 1988, for Chanley Wood Co. and filed at this office for proposed mining-related activities on federal land. The notice included activities to be completed on the unpatented mining claims Tomo 1 (UMC 311468) in T. 23 S., R. 1 W., section 10. Additional notices were subsequently filed in 1988-1990 for the Tomo 2 (UMC 312121), Tomo 3 (UMC 313033), and Tomo 4 (UMC 313034) mining claims. Case file UTU-71513 is the inclusive record for this project area, although other case file numbers have been assigned at times.

On June 14, 2000, the site was inspected by staff of the Utah Division of Oil, Gas, and Mining (DOGMA) and the Bureau of Land Management (BLM) and yourself. A follow-up inspection was completed by UDOGMA and BLM on August 30, 2000.

You are being notified that case file UTU-71513 is now closed. Natural vegetation is succeeding into the disturbed areas, and any further reclamation work would disturb that vegetation. If you propose any surface-disturbing activities on federal land, then you must file a new notice in this office at least 15 days prior to the start of that activity.

If you have any questions, please contact Michael Jackson at (435) 896-1522.

Sincerely,

Dave Henderson
Associate Field Manager
